APPLICATION FOR SUBDIVISION OF LAND

- Major Subdivision
- Preliminary Plat
- Minor Subdivision
- Final Plat

(A minor subdivision is defined as one involving no new public or private streets or roads, right-of-way dedication, no easements, no utility extension, where the entire tract to be subdivided is five acres or less in size and where four or fewer lots result after the subdivision is complete.)

Name of Owner/Applicant: _____

Address: _____

City: _____ State: _____ Zip: _____

Phone No. _____ Cell No. _____ Email _____

Name of Proposed Subdivision: _____

Location of Property: _____

Surveyor: _____ Address: _____ Phone No: _____

Zoning Classification: _____

Watershed District: yes no Floodplain: yes no In-Town: yes no

Number of Parcels/Lots: _____ Smallest Lot: _____ acres Largest Lot: _____ acres

New subdivision Roads: yes no Any infrastructure to be offered to town: yes no

If so, what type? _____

NOTE: DEADLINE FOR SUBMITTAL IS ONE MONTH PRIOR TO THE APPLICABLE MEETING DATE OF THE PLANNING BOARD.

I certify that the information shown above is true and accurate, and is in compliance with the conditions for a subdivision of land as defined in the Chapter 154: Subdivision Regulations of the Town of Aberdeen.

Applicant/Owner

Date

CHECKLIST

- _____ **Property designation**
- _____ **Name of owner**
- _____ **Location (including township, county and state)**
- _____ **Date(s) survey was conducted and plat prepared**
- _____ **A scale of drawing in feet per inch listed in words or figures**
- _____ **A bar graph**
- _____ **Name, address, registration number of the Registered Land Surveyor**
- _____ **The name of the subdivider**
- _____ **A sketch vicinity map showing the relationship between the proposed subdivision and surrounding areas**
- _____ **Corporate limits, townships, boundaries, county lines if on subdivision tract**
- _____ **The names, addresses and telephone numbers of all owners, mortgagees, registered land surveyors, land planners, architects and professional engineers responsible for subdivision**
- _____ **The registration numbers and seals of the professional engineers**
- _____ **Date of plat preparation**
- _____ **North arrow and orientation**
- _____ **The boundaries of the tract or portion of thereof to be subdivided, distinctly and accurately represented with bearings and distances shown**
- _____ **The exact boundary lines to the tract to be subdivided, fully dimensioned by lengths and bearings and the location of existing boundary lines of adjoining lands**
- _____ **The names of owners of adjoining properties**
- _____ **The name of any adjoining subdivisions of record or proposed and under review**
- _____ **Minimum building setback and building envelope**
- _____ **The zoning classification of the tract to be subdivided and adjoining properties**
- _____ **Existing property lines on the tract to be subdivided and on adjoining properties**
- _____ **Existing buildings or other structures, water courses, railroads, bridges, culverts, storm drains, both on the land to be subdivided and land immediately adjoining**
- _____ **Consecutively labeled lot and block numbers**
- _____ **Wooded areas, marshes, swamp, rock outcrops, ponds or lakes, streams or streambeds and any other natural features affecting the site**
- _____ **The exact location of the flood hazard, floodway and floodway fringe areas from the community's DFIRM maps**
- _____ **Proposed streets**
- _____ **Existing and platted streets on adjoining properties and in the proposed subdivision**
- _____ **Rights-of-way, location and dimension**
- _____ **Pavement widths**
- _____ **Approximate grades**
- _____ **Design engineering data for all corners and curves**
- _____ **Typical street cross section**
- _____ **Street names**
- _____ **Street maintenance agreement**
(All streets must be designated either "public" or "private". Where public streets are involved which will not be dedicated to a municipality not to the state, the subdivider must submit the following documents to the State Department of Transportation District Highway Office for review: a complete site layout, including any future expansion anticipated; horizontal alignment indicating general curve data on site layout plan; vertical alignment indicated by percent grade, PI station and vertical curve length on site plan layout; (the District Engineer may require the plotting of the ground profile and the grade line for roads where special conditions or problems exist); typical section indicating the pavement design and width and the slopes, widths and details for either the curb and gutter or the shoulder and ditch proposed; drainage facilities and drainage areas.

- _____ Where streets are dedicated to the public, but not accepted into a municipal or the state system before lots are sold, a statement explaining the status of the street in accordance with § 154.49(B)
- _____ If any street is proposed to intersect with a state maintained road, the subdivider shall apply for driveway approval as required by the State Department of Transportation, Division of Highways' Manual on Driveway Regulations
- _____ Evidence the subdivier has obtained DOT approval
- _____ Utility and other easements
- _____ Riding Trails
- _____ Natural buffers
- _____ Pedestrian or bicycle paths
- _____ Parks and recreation areas with specific type indicated
- _____ School sites
- _____ Areas to be dedicated to or reserved for public use
- _____ Areas to be used for purposes other than residential with purpose of each stated
- _____ The future ownership (dedication or reservation for public use to governmental body, for owners to duly constitute homeowners' association or tenants remaining in subdivider's ownership) of recreation and open space lands
- _____ Public or Community Sewage System (if any)
- _____ Storm sewers
- _____ Other drainage facilities (if any)
- _____ Public water systems (if any)
- _____ Natural gas lines
- _____ Telephone lines
- _____ Electric lines
- _____ Connections to existing systems, showing line sizes, the location of fire hydrants, blowoffs, manholes, force mains and gate valves
- _____ Plan for individual water supply and septic tank systems (if any)
- _____ Profiles based upon mean sea level datum for sanitary sewers and storm sewers
- _____ Acreage in total tract to be subdivided
- _____ Acreage in parks and recreation areas and other nonresidential uses
- _____ Total number of parcels created
- _____ Acreage in the smallest lot in the subdivision
- _____ Linear feet in streets
- _____ The name and location of any property or buildings within the proposed subdivision or within any contiguous property that is located on the US Department of Interior's Natural Register of Historic Places
- _____ Sufficient engineering data to determine readily and reproduce on the ground every straight of curved lines, street line, lot line, right-of-way line, easement line and setback line, including dimensions, bearings or deflection angles, radii, central angles and tangent distance for the center line of curved property lines that are not the boundary line of curved streets. All dimensions shall be measured to the nearest one-tenth of a foot and all angles to the nearest minute.
- _____ The accurate location and descriptions of all monuments, markers and control points
- _____ A copy of any proposed deed restrictions or similar covenants. Such restrictions are mandatory when private recreation and infrastructure areas are established
- _____ A copy of the sedimentation and erosion control plan submitted to the Department of Environment and Natural Resources and a copy of the letter of approval from DENR
- _____ Topographic map with contour interval of two feet
- _____ All certifications required in § 154.31

Any other information considered by either the subdivider or the Planning Board to be pertinent to the review of the plat.
