2. Service Mark and Trademark License Agreement between the Town of Aberdeen and Bill Marts

Manager Zell stated this issue came about because Bill Marts wants to use the logo from the Police Department and Fire Department to make items to sell to Aberdeen staff. Manager Zell stated Attorney Morphis drew up this agreement for the Board's review.

3. Partners in Progress Listen N Learn.

Mayor Mofield asked Melanie to outline things that Partners in Progress have done in Aberdeen over the past year.

Melanie stated Royal Threads received a grant from the NC Rural Center and have renovated the adjacent building to their current operation in order to expand their workforce, created 6 additional jobs, and the \$48,000 grant was received.

Southeastern Tool and Die received a grant when they moved into the Intek building. Melanie stated it is still a work in progress, because the economy went through a tough time, had to lay employees off, and now they are just trying to get back to where they were in 2008. Mr. Corso stated Royal Threads was considering leaving the area, and the building reuse and restoration grant was key to keeping Royal Threads here in the area.

Mr. Corso stated the mission of Partners in Progress is to recruit, retain and expand. Retention and expansion is the first mission of theirs. Mr. Corso stated the recruitment piece has been changing and there is a new way of doing business now. Mr. Corso stated we are viewed as a mini metropolitan and to that end there is an opportunity tap into new resources, in particular southern Moore County.

Manager Zell wanted to know if the Aberdeen Business Guild was invited to the stakeholders meeting to discuss the direction of Partners in Progress. Melanie stated she would check and see if they were on the list. Mayor Mofield asked if Partners in Progress has a list of vacant buildings in Aberdeen. Mr. Corso stated yes, they are even listed on the Partners in Progress website. Melanie stated it is important that Partners in Progress be made aware of empty buildings so that they are familiar with empty buildings and can market them.

Mr. Hobbs stated the current Board for Partners in Progress has been going on for 8 years now, and the Board has never come and asked local governing Boards if they are happy with the direction of Partners in Progress. Mr. Hobbs stated that is the purpose of coming tonight is to find out if Aberdeen is pleased with the direction that Partners in Progress is headed in.

Mayor Mofield requested Partners in Progress to not take business from one community and move it to a neighboring community. Mayor Mofield stated she would rather see businesses pulled from out of Moore County into Moore County. Mr. Hobbs

stated Partners in Progress learned of the decision for Railhouse Brewery to move to Pinehurst very late in the game, and did not participate in the decision making for that business decision. Manager Zell pointed out that Partners in Progress should have taken a stance that they were not supportive of that type of business when Railhouse Brewery made the move to Pinehurst. Mr. Hobbs suggested Manager Zell and Board members to keep Partners in Progress informed of what they are not doing well.

Manager Zell stated Ray Ogden did traditional marketing, whereas Mr. Corso will be using a new age type of marketing.

Melanie left an open request for the Town of Aberdeen to keep Partners in Progress updated of any vacant buildings in Aberdeen that may could be used for economic development. Planning Director Liles suggested using Aberdeen's resources through the TV station, website, and newsletter to reach the public and find out where empty buildings are located.

Mayor Mofield stated she loves good clean industry. The Board members thanked Partners in Progress for coming tonight and the work they do.

4. Triangle Regional Film Commission Presentation.

Mr. Corso stated the film industry could create a stream of revenue for Moore County, and he has asked Rob Shoaf to speak to the Board tonight about the Triangle Regional Film Commission. Mr. Shoaf stated our region is the last region in the state to not have a film commission. Mr. Shoaf stated the mission is to market the 13 counties in the area to film producers and try to bring films to the area to produce a stream of revenue that could benefit the community. Mr. Shoaf stated in 2010 our area reported \$0 in production spending. Mr. Shoaf stated the Triangle Regional Film Commission was formed in late 2010 on a part time basis, and \$4 million was brought into the area in 2011 for production spending. Mr. Shoaf stated in 2012, \$7 million+ estimated as of April 15th. Mr. Shoaf stated accessibility is key and Moore County has great access by US Highway 1 and twenty location photo packages were requested in the first quarter of 2012. Of those 20 requests, 4 film location packages included listings from Moore County. Mr. Shoaf stated independent feature productions will spend up to \$110,000 per day on location. The NC State film office reported nearly \$230 million spent in 2011 and more than 10,000 jobs created. Mr. Shoaf stated the state film office projects more than \$275 million will be spent in 2012.

Mr. Shoaf stated he is asking for a minimum contribution of \$2,500 to be used for marketing of the area. Mr. Shoaf stated if one large film comes to the area, then the return on investment is taken care of in one day of film shooting. Mr. Shoaf stated

including with that \$2,500 contribution, it also includes professional digital photography for Town publications, advertising, and web applications. Mr. Shoaf stated the TRFC Community Advisory Board will be formed and one member from each community will be included. Mr. Shoaf stated they are really on a shoestring budget, and he is really hoping to get support from the community.

Mayor Mofield asked what the TRFC's budget was last year. Mr. Shoaf stated \$313,000 was the budget last year, and this year \$233,000 is the budget, and they are not on track to meet that budget either. Mayor Mofield thanked Mr. Shoaf for the information.

Planning Director Liles stated the Town contributed some money to the County to update the regional hazard mitigation plan. Planning Director Liles stated the Mitigation Advisory Committee is meeting on May 10th to develop a recommendation as to whether or not to participate in a regional effort. If a decision is reached to move forward, each participating local government, including Aberdeen, would need to sign on to an Agreement to Participate in a Regional Hazard Mitigation Plan quickly, in order to not hold up the process.

Mayor Mofield was very concerned about what may happen to this property if the bypass goes in on US Highway 1.
