My Water Advisor - Important Tool for Water Customers

The Automatic Meter Reading Project that the Town has been working on over the past few years will be completed soon. This means that all water customers will have their old manual read meter replaced with the AMR meters. The AMR meters allow customers to track their usage on a daily basis, set up notifications for high usage which will help prevent high water bills, and view water bill balances.

Customers will need to create an account through [My Water Advisor](#).

Information needed to create an account is:

- Account Number (can be found on the water bill)
- First and Last Name (as is currently listed on the water bill)
- Valid email address

If there are any questions when creating an account, contact the Utility Billing Department at 910-944-7799 or utilitybilling@townofaberdeen.net.
