## My Water Advisor - Important Tool to Help Prevent Water Leaks & High Water Bills

The majority of water customers have had their old manual read meter replaced with the AMR meter. The AMR meters allow customers to track their usage on a daily basis and set up notifications for high usage which will help prevent high water bills.

Customers are encouraged to create an account through My Water Advisor, online or download the app, which will send alerts to customers when there is high usage usually indicating a leak.

Information needed to create an account is:

- Account Number (can be found on the water bill)
- First and Last Name (as is currently listed on the water bill)
- Valid email address

If "no data" shows on your My Water Advisor dashboard, then the manual read meter is still installed. Once an AMR meter is installed, data will be present.

If there are any questions when creating an account, view the [My Water Advisor User Guide](#). You can also contact the Utility Billing Department at (910) 944-7799 or email [utilitybilling@townofaberdeen.net](mailto:utilitybilling@townofaberdeen.net).

## Town awarded Build-Ready Site Grant from the North Carolina Railroad Company for the Industrial Park

The North Carolina Railroad Company (NCRR) announced March 1st that the Town of Aberdeen is one of six (6) recipients in the state to be awarded a Build-Ready Sites grant. The \$167,670 grant will be used to prepare a portion of the [Iron Horse Industrial Park](#) in Aberdeen for industrial development.

"The Town of Aberdeen is thrilled that after nearly 20 years of hoping for some kind of activity at Iron Horse, some dirt will finally be moved," said Robbie Farrell, Mayor of Aberdeen. "This grant clears the way to creating quality jobs for the Town of Aberdeen and Moore County. We're grateful to the NCRR for this grant and we appreciate the support we've received from Partners in Progress."
